2.3. Scholarship Programs

Borusan Kocabiyik Foundation awarded scholarships to 1,132 students in 2024

We deeply value the principles set forth by our Founder and Honorary President Asım Kocabiyik, believing that progress in the secular and democratic Republic, economic development, and the proper upholding of human rights are achievable only through education. In this context, scholarship programs are among our primary areas of focus. Since we were first established, we have worked to support the creation of a bright, knowledge-driven future through the scholarship programs, guided by the principle of providing equal educational opportunities.

Messages from Our Scholars

Throughout my educational journey, being a scholar of the Borusan Kocabiyik Foundation has provided me with tremendous financial and emotional support. This support has not only created significant opportunities for me to pursue my goals and dreams but has also been a strong source of motivation in my academic life. I truly value this opportunity and feel incredibly fortunate.

NEFİSE NEVİN YAZKAN

BOĞAZIÇI UNIVERSITY, DEPARTMENT OF ECONOMICS, 3rd-YEAR STUDENT

Being a Borusan Kocabiyik Foundation scholar means being able to participate in various cultural and art events with ease, making progress in language skills and career management through many support programs, and being part of such a deeply rooted foundation culture.

ESAT İRMİKÇİ

BOĞAZIÇI UNIVERSITY, BUSINESS ADMINISTRATION, 1st-YEAR STUDENT

I feel very blessed. It's a wonderful feeling to be part of a Foundation that not only supports us financially but also cares for our wellbeing in so many ways. Being a Borusan Kocabiyik Foundation scholar means being thoughtful even toward someone you don't know, to recognize and respond to needs they may not even realize they have, making them feel valued, and feeling valued yourself.

“You Can Light a Candle Too!”

For the past 35 years, the Association for Supporting Contemporary Life (ÇYDD) has been dedicated to promoting equal access to education, particularly in regions facing the deepest inequalities. Through its “You Can Light a Candle Too!” project, the Association supports thousands of young people who are eager to study but who face barriers and cannot continue their education. In 2023, we joined this effort as part of the Education Mobilization initiative. We continued to provide scholarships to 431 students in 2024.

2.3.1. Our Types of Scholarships

Borusan Music Scholarship

Each year, we provide the **Borusan Music Scholarship** to support gifted young musicians pursuing a master's degree abroad. Recipients are chosen according to the standards established by a jury of renowned experts in the field. The funding has been completed for 13 students who were awarded the Music Scholarship for the 2023/24 academic year. Owing to upcoming changes to the program's content, we decided not to receive applications for the 2024/25 period. However, we are continuing to cover the living and school expenses of the seven scholars who are continuing their studies.

2.4. Scholarship Support Program

Hep1İZ Support Program: Preparing skilled individuals for professional life.

Launched in 2021, the Hep1İZ Support Program's goal is to prepare our scholarship recipients for professional life by offering them a platform where they can access psychological support, advice on healthy nutrition, legal consultancy, and medical information counseling. We also aim to encourage efficient time management and reading habits by providing audiobook subscriptions.

Based on feedback, we expanded the program to include English-language support across different proficiency levels and introduced a mentorship system, with Borusan employees volunteering as mentors. We supported the personal development of scholarship recipients in their third and fourth years of university, helping them on their career journeys.

In 2024, as in previous years, we welcomed our new scholars in the **HEP1İZ Support Program**, a multi-layered, volunteer-based support program that complements our financial scholarships. We continued to assist in their personal and career development. Within the scope of the program, we provided English language training for 70 students in collaboration with Berlitz; mentorship for 55 mentees provided by Borusan's volunteer mentors; audiobook subscriptions for 87 students; and Avita Support for 207 students, offering access to expert advice on psychological, legal, financial, and medical matters, as well as healthy nutrition guidance.

2.4. Scholarship Support Program

Messages from Our Scholars

I've had the chance to benefit from the Mentorink and Storytel programs, and each time, these experiences have made me feel truly grateful to Borusan. My mentor was incredibly supportive during a particularly demanding period. Similarly, I thoroughly enjoyed using Storytel. I used to be hesitant about listening to books instead of reading them, but I realized I could make use of moments like commuting, and Storytel helped fill the gap when I didn't have time to read. As for the Hep1İZ Program, it has been incredibly satisfying for me, and I didn't want it to end.

HAYAT BİLİCİ

A thoughtfully designed, detailed program that truly lives up to its name. This summer, it came to my aid just when I really needed support, and I deeply felt the Foundation's continuous support and the meaning of the Hep1İZ Program. For me, this support makes me feel that you're genuinely by my side and shows me that being a scholar is much more than just a notification on a bank account.

2.4. Scholarship Support Program

Messages from Our Mentors

Throughout my education and career, I have had valuable experiences by making the most of the opportunities that came my way. Through this program, I aimed to help young people preparing for their careers to attain their dreams by sharing my knowledge and experiences. At the same time, I felt joy for being part of a collective spirit of solidarity. The experience not only supported my personal growth but also aligned with my aspiration to create social impact. So far, I've had the privilege of working with three students. The joy of passing on hope and support into the future is truly one of a kind.

TOLGA BÜYÜKBAŞ
COMMERCIAL EXCELLENCE MANAGER,
BORUSAN LOGISTICS

Carried out by the Borusan Kocabiyik Foundation, the Hep1İZ Support Program offers a valuable opportunity to contribute, not only to the educational lives of young people, but also to their social and professional development. Sharing our knowledge and experience with university students to help them prepare for professional life and grow into well-equipped individuals has once again been an enriching and valuable experience.

MÜGE ARASILAR
STRATEGIC PLANNING MANAGER,
BORUSAN OTOMOTIV

For me, taking part in this program was both a meaningful opportunity for sharing and the beginning of a new learning journey. Being able to inspire others with my experiences and to contribute to their development is a strong source of motivation. I see mentorship not only as a way to share knowledge, but also as a process of mutual growth and learning. Through this program, I believe that I have been enriched both professionally and personally.

2.5. Lasting Contributions and Improving Educational Facilities

Since our establishment, we have consistently provided schools with essential resources, including computer equipment, laboratory supplies, and library materials. We also support student growth through robotics and technology initiatives. Enhancing physical educational environments continues to be a central focus of our mission.

In our commitment to creating and delivering value to Türkiye, the Borusan Kocabiyik Foundation has developed ten lasting projects across four locations in the country. These include schools, student dormitories, social facilities, and community centers.

Opening of the Student Center at Uludağ University Gemlik Asım Kocabiyik Campus

In 2024, we continued our commitment to maintaining, restoring, and improving our permanent works. Additionally, on October 18, 2024, we inaugurated the key units of the **Student Center at Bursa Uludağ University Gemlik Sunğipek Asım Kocabiyik Campus**, a project that was initiated through a joint protocol signed in August 2021 between Gemlik Municipality and Bursa Uludağ University. Designed to offer students a space that blends both study and socializing opportunities within campus life, the center features two lecture halls with a total capacity of 246, a spacious social facility, and a library.

Renovation and Opening Ceremony of Kocaeli University Hereke Asım Kocabiyik Vocational School

Our support for Kocaeli University, which was impacted by the 1999 İzmit earthquake, started with a visit from our Founder and Honorary Chairman, Asım Kocabiyik, to then Rector Prof. Baki Komsuoğlu. This resulted in the construction of two dormitories and a vocational school building on a 14,464 square meter site in Hereke, forming the Kocaeli University Hereke Borusan Campus, with 11 buildings. The renovation and reinforcing works for the campus have now been completed.

The Kocaeli University Hereke Asım Kocabiyik Vocational School, which includes 27 classrooms, 15 vocational and three computer laboratories, a library, two reading rooms, one meeting room, two auditoriums with capacities of 170 and 75 respectively, offices for academic and administrative staff, two guesthouses, and a cafeteria, was fully renovated in 2024 and reopened on December 12, 2024.

2.6. Education Projects

2.6.1. Borusan Story House

A sustainable, experience-based educational project unique to the Borusan Kocabiyyik Foundation.

Borusan Story House began operations in 2023 through a protocol signed between the Borusan Kocabiyyik Foundation and the Beyoğlu District Directorate of National Education as part of an educational collaboration. It continued as a project in its first year and evolved into an established program in its second year.

Our workshops, designed for children aged 7-9, are structured around a direct, liberating, imaginative, non-categorizing approach that respects diverse characteristics - an understanding that also defines the framework of our Foundation's educational philosophy.

Unlike standard educational models that are broadly applied across various contexts, our workshops are based on field-specific needs analyses and exclusively designed for our Foundation. In 2024, we conducted our workshops in three areas: Weekday Workshops, Weekend Workshops, and Borusan Story House at the Exhibition: *A Vision to Shape the Future*

“An approach characterized by directness, empowerment, fostering imagination, sustainability, transferability, resisting categorization, acknowledging, and respecting diverse traits, defines the parameters of the Borusan Kocabiyyik Foundation's educational framework.”

Weekday Education Workshops

Our educational program for children, specifically designed for ages 7-9, entirely unique to BKV, brings together various disciplines in an experimental format, meticulously crafted by experts to reflect the needs and trends of the field.

Our Weekday Education Workshops featured 8 guest instructors from 8 different fields across 32 sessions throughout the 2024 academic year. For each workshop, we invited a class from designated primary schools. Spanning disciplines such as creative drama, expressive play, Bauhaus, *jeux dramatiques*, mathematics, and chemistry, our 2024 **Weekday Education Workshops reached a total of 759 students**. In 2024, we hosted **32 workshops** held between January-May and October-December and welcomed **28 classes from 17 schools** in Beyoğlu and Şişli.

Weekend Education Workshops

Led by a resident instructor, our Weekend Education Workshops feature 6 workshops per month. These workshops, all focusing on emotions and structuring their educational framework accordingly, are held on Sundays during the academic year, consisting of two sessions. Through these efforts, **we engaged a total of 1,056 children** across **48 workshops** conducted between **February-May** and **October-December 2024**.

“A project committed to the importance of non-formal education and its direct impact on children’s self-awareness, social interactions, and academic performance, the Borusan Story House aims to both cultivate and maintain a culture of solidarity within its parent organization, the Borusan Kocabiyik Foundation, while also nurturing the Foundation’s values towards art and life with its Weekend Education Workshops.”

In 2024, through our weekday and weekend programs, we successfully reached 1,815 students.

Messages from Our Participants

First of all, my daughter absolutely loves your workshops and had a great time. She described them as very creative and "relaxing". She also said, "I think our teacher is an adult with a child's spirit. We share the same tastes. When I grow up, I want to be like her."

Teacher Meetings

We reached 675 classroom teachers through 25 workshops in Hatay, and 355 teachers in two schools through 25 workshops in Istanbul.

Our Teacher Meetings are shaped by field-based needs analyses and designed to respond directly to the learning, implementation, and communication needs of classroom teachers. A key feature of Teacher Meetings is the opportunity for teachers to share practical experiences and provide feedback in an onsite and regular training model.

In 2024, we carried on with the Teacher Meetings in Beyoğlu through Nonviolent Communication Workshops while also hosting Storytelling Workshops for four months in Hatay at the Teacher Solidarity Space, a sub component of the Education Reform Initiative's Teacher Network. In Hatay, we held 25 workshops with a total of 675 participants, and in Istanbul, we conducted 25 workshops across 2 schools, engaging 343 participants.

We also presented our work at the 8th Change Ambassadors Summer Meeting of the Teachers Network, held at the Koç School. Around 300 Change Ambassador teachers from 45 provinces in Türkiye participated. We gathered feedback from teachers about our programs and gained insights that will inform future program development.

Psychosocial Support Workshops

In response to the February 6 earthquake, Borusan Story House initiated regular psychosocial support workshops for children and youths in affected regions. In collaboration with a team of specialized trainers, we continued our monthly psychosocial support (PSS) workshops in Adiyaman and Hatay. The aim of these workshops was to accurately identify psychosocial support (PSS) needs and to conduct regular activities through a dynamic structure that can adapt to any condition.

Six months following the completion of our work in Adiyaman, we directed our efforts only toward Hatay. A team of 6 to 8 expert trainers, experienced in post-traumatic stress disorder, initially addressed emotional needs in both locations, later transitioning to educational support.

The program was structured in three phases: In the first phase (May-July 2023), we conducted **188 workshops**, reaching **4,982 children**. The second phase (September-December 2023) focused on development and micro-groups, with **228 workshops**, reaching **2,253 children**. In the final phase (January-May 2024), we conducted **356 workshops**, engaging **7,382 children**.

The objectives of the Borusan Story House psychosocial support workshops include:

- Contributing to the emotional and social wellbeing of children,
- Providing a foundation for children to reconnect with life and to support them in expressing their experiences/events,
- Enabling children to interact with their peers and to share their own stories,
- Encouraging the sharing of difficult topics through various art forms and interdisciplinary methods,
- Facilitating children's reconnection with school and education by opening opportunities for non-formal.

Learning at the Exhibition: *A Vision to Shape the Future*

The Borusan Story House at the Exhibition Program was created to offer children a cultural excursion experience through our *A Vision to Shape the Future* exhibition, opened by the Borusan Kocabiyik Foundation in celebration of the Republic's 100th anniversary. The program was launched in December 2023 under a protocol with the Beyoğlu District Directorate of National Education and continued until June 2024.

Story House educators led guided exhibition visits designed specifically for third and fourth-grade students from elementary schools in Beyoğlu, ensuring a curriculum-aligned experience. Additionally, we welcomed middle and high school students, adapting the tour to their developmental needs. Using the *jeux dramatiques* method, children explored the exhibition through guided play with an educator and then participated in a workshop to reinforce their learning. With a strong emphasis on high-quality cultural experiences and non-formal education, this fruitful collaboration allowed us to host students from **55 schools and 296 classes** across Istanbul, reaching a total of **11,048 students** between January and June 2024.

Through creative drama methods, the program highlights the achievements of the Republic for children. The program expanded beyond the district of Beyoğlu to reach all districts of Istanbul. In so doing, it significantly broadened our network of participants, with teachers, schools, parents, and children, also strengthening our communication network in other education programs. As part of its belief in lifelong learning, our Foundation's Education Department also held four main public talks within the Long Saturdays series to accompany the exhibition.

ALMA Nomination

The Borusan Story House education program has been nominated by the International Board on Books for Young People for the prestigious Astrid Lindgren Memorial Award (ALMA), one of the world's most prestigious awards. Supported by the Swedish government, ALMA is awarded annually to an individual or organization for outstanding contributions to children's and young adult literature. Borusan Story House has made history as the youngest nominee ever, joining esteemed organizations such as TOG and TEGV in representing Türkiye at ALMA throughout the year.

Our Silent Book: Bazen Öyle, Bazen Böyle

Story House also focuses on silent books, which is one of the major gaps in elementary education. In 2024, we released our first silent book, *Bazen Öyle, Bazen Böyle*, (*Sometimes Like This, Sometimes Like That*) which explores the theme of friendship. We printed 1,000 copies, and within three months, 780 of those were distributed to students, receiving widespread appreciation. The book has gained significant recognition and was chosen to represent Türkiye at the 2025 Bologna Children's Book Fair, the world's most prestigious and only dedicated exhibition for silent books.

We provided 10,557 hours of foreign language support to 615 students at Borusan-Oto Zehra Nurhan Kocabiyik Middle School.

Following our 2023 commitment to ensuring that graduates of the schools we support should be proficient in English, we expanded our English Language Support Program in 2024 to include 615 students in the 5th Grade at our pilot school, Borusan-Oto Zehra Nurhan Kocabiyik Middle School, in collaboration with Novakid. According to the course evaluation survey, 68.2% of parents reported that their children gained proficiency in English, and 97.4% rated the project as successful.

2.6.2. English Language Support

Messages from Our Students

The English Language Support program at Borusan-Oto Zehra Nurhan Kocabiyik Middle School, which I'm proud to attend, has been truly a turning point for me. Although I was excelling academically, especially in robotics and coding, my reluctance toward English classes was limiting my potential, especially in areas like coding and software. This long-standing challenge was finally overcome thanks to the program brought to our school by the Borusan Kocabiyik Foundation. Now, I look forward to English classes and especially to creating wonders in software. I'm grateful to the Borusan Kocabiyik Foundation both for my wonderful school and for this program.

2.6.2. English Language Support

Messages from Parents

Despite his outstanding performance in all other subjects, my son held biases against foreign language courses and showed little interest in language classes. The English Language Support Program implemented at our school by the Borusan Kocabiyik Foundation has helped him make great strides and largely overcome his biases, making notable progress in speaking, writing, and grammar. As a parent, I extend my heartfelt thanks to the Borusan Kocabiyik Foundation for bringing this program to our school.

GÖKHAN ATAR

I am very pleased with the English Language Support Program offered to our children by the Borusan Kocabiyik Foundation at our school. We are proud that the Foundation has considered our children in such an educational platform. We are truly thankful for what you're doing for our country and our children, who are the architects of our future.

Messages from Teachers

We received the wonderful books you sent to our school as part of the My Dream Partner Book project. We welcomed them with great excitement and joy together with our students. These books will broaden their imaginations and deepen their love for reading. Your contribution to promoting equal opportunities in education and helping every child grow up with access to books means so much. Below is a photo that captures the happiness of our students with their new books. Their smiling faces and the enthusiasm with which they hold the books show the significance of this project. We thank you from the bottom of our hearts. Thanks to your support, we will continue raising generations that look to the future with hope.

Since our establishment, we've been committed to supporting student growth through robotics and technology initiatives. Founded in 2019, the BHS Eco Team at Borusan Asım Kocabiyik Vocational and Technical Anatolian High School is a robotics and technology team composed of students from departments including motor vehicle technology, IT, mechanical design, and electrical and electronics training. It includes two main divisions: the 7444 Moonstar and 4972 Borusan Robotics and Vehicle teams.

Our team 7444 Moonstar ranked 6th in the 2024 FRC (First Robotics Competition) Aerospace Valley Regional held in LA, California, USA. Formed in 2018, the team has earned numerous national and international awards and currently includes five mentor teachers and 52 students.

In addition to their US competition, the team also qualified for the finals in the FRC Haliç Regional 2024 held in Istanbul, featuring 53 teams from six countries. They were placed 5th overall and received the Autonomous Award, recognizing the robot with the most consistent, reliable, and highest performance during the autonomous period.

Messages from Students

Participating in the Shell Eco-Marathon gave me the chance to push my limits and apply my engineering knowledge to a real-world project. Thanks to the support of the Borusan Kocabiyik Foundation, we not only developed a vehicle but also gained a broader outlook for the future. The opportunities provided by the Foundation inspired me to think about how technology can be used for the greater good and to consider this as a career path. The most valuable part of this experience was not just learning technology but also gaining the courage to develop innovative solutions. The Borusan Kocabiyik Foundation taught me not just to dream, but also to take steps necessary to turn that dream into reality. I am truly grateful for this opportunity.

They, along with our mentors, have illuminated our path and inspired us to set great goals. Focusing on engineering and STEM, this competition nourishes the dreams of young people like us and shows us how we can contribute to the communities and the world around us. I, Enes Aslan from 9-B, an electrical-electronics student, and a permanent team member, sincerely thank the Borusan Kocabiyik Foundation and our mentors for their invaluable support.

2.6.5. Borusan Children's Choir

Established in November 2002, the Borusan Children's Choir originally welcomed children aged 9-14. Following changes in both its approach and conductor, the choir was restructured in May 2024 to focus on Choir-Based Music Workshops, shifting its age group to 7-9-year-olds. In 2024, training continued at Namık Kemal Primary School.

Throughout the year, students took part in activities designed to develop their ability to work together, sing in harmony, perform music with care and attention to others, grasp fundamental musical concepts, and act collectively as a choir. Composed of 500 students, the choir gave performances in the schoolyard at the closing of the 2023/24 academic year, the opening of the 2024/25 academic year, and during Republic Day festivities on October 29.

2.9. Collaborations

Beyoğlu Municipality / Beyoğlu Children's Assembly

We were invited by the Beyoğlu Municipality to take on a leading role in the development of the Children's Assembly, marking our first direct collaboration with the Municipality.

We conducted the workshop Being a Child in Beyoğlu: Do I Have Rights?, designed by our resident educator Filiz Işık Bulut and artist/lawyer Kutlay Evrensel for children aged 7-9. This workshop laid the groundwork for the Assembly's formation. Our students from our long-term class at the Story House, ongoing since 2023, participated to the first Assembly. We will continue to advise the Municipality on the sustainability of the Assembly and conduct workshops. Our aim is to maintain a core assembly structure while expanding it to ensure broader child participation and a cultivation of an awareness of their rights.

The Beyoğlu Children's Assembly was established on November 20, the United Nations' World Children's Day, with the collaboration of Beyoğlu Municipality and our Foundation, with the goal of promoting children's rights and fostering a culture of coexistence.

In 2024, we hosted the project *Dünyaya Sevgi ve Saygı Kuşağı* (Generation of Love and Respect for the World), carried out in collaboration with Yuvam Dünya and *National Geographic*. Two classes from our Weekday Workshop program participated in the project at our venue. For 2025, we have undertaken the facilitation of Yuvam Dünya's Biodiversity Workshop across all primary schools in Beyoğlu, with the approval of the Ministry of National Education.

Borusan Contemporary

This year, Borusan Contemporary's children's workshops welcomed the Story House, our educational program that has reached thousands of children to date. Focused on the 4-6 age group, the workshops are led by Bahar Gürey, one of Türkiye's leading experts in the field of *jeux dramatiques*. Inspired by "Naked City" the first solo exhibition in Türkiye by American artist Doug Aitken, the workshops are held as part of Borusan Contemporary's 2024/25 season.

Borusan Sports Club

We came together with the entire Borusan community at the Borusan Sports Club event. Throughout the day, we held two workshops and distributed our silent book to all participants.

BIPO turns 25!

Since its establishment, the Borusan Istanbul Philharmonic Orchestra (BIPO) has been contributing to Türkiye's music scene, also gaining international recognition. In 2024, BIPO celebrated its 25th year in the classical music world. On the evening of September 20, a special event was hosted at Borusan Music House by Zeynep Hamedî, Chairperson of Borusan Kocabiyik Foundation. The event was attended by BIPO's honorary conductor Gürer Aykal, and artistic director and principal conductor Carlo Tenan, long-time friends of BIPO, who have witnessed the past 25 years, Borusan Sanat Premium members, cultural institutions, and media representatives from the arts and culture sector.

To date, BIPO has reached more than 350,000 listeners in Türkiye and more than 20,000 abroad, sharing the stage with nearly 40 guest conductors and more than 500 soloists. In 2025, the orchestra plans to release a newly recorded album and to embark on a United Kingdom tour. BIPO has already performed a total of 13 concerts across five countries during six tours, reaching more than 20,000 listeners.

3.1. Borusan Istanbul Philharmonic Orchestra (BIPO)

Concerts, Guest Artists, and Conductors

In 2024, BIPO performed 12 concerts at the Zorlu PSM Turkcell Stage, reaching more than 16,000 audience members.

Conducted by Carlo Tenan, Gürer Aykal, Finnegan Downie Dear, Gergely Madaras, Francisco Valero-Terribas, Nisan Ak, and Laurence Equilbey, the orchestra shared the stage with guest soloists and ensembles including Nino Machaidze, Jonathan Tetelman, Alexandra Conunova, Midori, Valeriy Sokolov, Joyce DiDonato, Bomsori Kim, The Per Poc Puppet Company, Öner Erkal, Zee Zee, Hélène Walter, Alena Baeva, Chloe Ji-Yeong Mun, and Marco Vergini.

While preparing our programs, we make a conscious effort to include female conductors each season. In 2023, we hosted Carolyn Kuan and Emilia Hoving; in 2024, Nisan Ak and Laurence Equilbey. The final concert of the 2024/25 season will feature Nil Venditti.

3.1. Borusan Istanbul Philharmonic Orchestra (BIPO)

Album Recording

BIPO celebrated its 25th anniversary with a new album recording. The orchestra has previously released eight albums under Onyx, Deutsche Grammophon, and most recently, Prospero Classical. Conducted by its artistic director and permanent conductor Carlo Tenan, BIPO recorded a new album, featuring works by Kodály, Enescu, Martinů, and Bartók. The album is planned to be released in May 2025 under the Onyx label.

United Kingdom Tour

During the first leg of the tour in the United Kingdom, the Borusan Istanbul Philharmonic Orchestra (BIPO) will accompany cellist Pablo Ferrández in five concerts conducted by Carlo Tenan between April 4 and 11. Performing in Perth, Edinburgh, London, Guildford, and Sheffield, BIPO will share the stage once again with Ferrández, performing works by Schubert, Saint-Saëns, and Beethoven, along with a work by Turkish composer Ferit Tüzün.

Auditions

In October 2024, we announced auditions for the viola section to expand BIPO's artist pool and update its substitute list. Out of 17 applicants, three passed the second round and earned a place on BIPO's substitute list.

3.1. Borusan Istanbul Philharmonic Orchestra (BIPO)

Major Contributing Institution

In 2024, BIPO and the Borusan Quartet each performed a concert at the 52nd Istanbul Music Festival, organized by the Istanbul Foundation for Culture and Arts (İKSŞ), with Borusan Holding as the main sponsor and Borusan Sanat as a major contributing institution. Conducted by Carlo Tenan, BIPO shared the stage with soprano Giuliana Gianfaldoni, mezzo-soprano Cecilia Molinara, tenor İlker Arcayürek, bass Jongmin Park, and the Hungarian National Choir, at the Atatürk Cultural Center, performing works by Mozart.

Leyla Gencer Voice Competition

At the final gala of the 10th Leyla Gencer Voice Competition, organized by İKSŞ, Borusan Sanat, and the La Scala Theatre Academy, and held on September 27, 2024, at the Cemal Reşit Rey Concert Hall, BIPO accompanied the competitors under the baton of conductor Pietro Mianiti. BIPO's artistic director and principal conductor Carlo Tenan served on the jury for the final round.

3.1. Borusan Istanbul Philharmonic Orchestra (BIPO)

External Concerts: İş Sanat

Under the direction of Carlo Tenan, BIPO performed at the İş Sanat Gala Concert at the Volkswagen Arena on May 28, celebrating the centennial of İşbank, accompanying Murat Karahan, Plácido Domingo, and Elena Stikhina. BIPO also opened İş Sanat's 2024/25 season, performing with Güher and Süher Pekinel at a concert held at İş Sanat Towers on November 7.

Collaboration: "The World of Instruments with BIPO"

To go beyond a traditional concert experience and spotlight the musicians and their instruments, we launched a new series featuring BIPO members sharing the sound and story of their instruments. As a result, a program emerged with members of the Borusan Istanbul Philharmonic Orchestra sharing the sounds and stories of their instruments. Developed in collaboration with music-writer Alper Bahçekapılı and presented in interview format, each episode featured an orchestra member discussing their journey into their profession, how they joined the orchestra and their instrument. Initially released on YouTube, the series reached more than 750,000 viewers and began streaming on borusansanat.tv in January 2025.

3.2. Borusan Quartet

Borusan Quartet is preparing for its 20th anniversary

As it prepares to celebrate its 20th anniversary, Borusan Quartet, Türkiye's longest-running string quartet, continued to meet audiences this year through regular concerts at Süreyya Opera House and performances at both resident and guest venues. As with BIPO, we have now organized traditional New Year concerts with Borusan Quartet for the past two years, offering programs that go beyond classical chamber music.

Membership Change

In 2024, a new member joined the Borusan Quartet. Poyraz Baltacıgil, associate principal of BIPO's cello section, became the quartet's cellist. Coming from a family of musicians spanning three generations, Baltacıgil continues his role as associate principal with the BIPO and plays in the cello section of the Istanbul State Symphony Orchestra.

3.2. Borusan Quartet

External Concerts

In 2024, Borusan Quartet gave four concerts at Süreyya Opera House, reaching **more than 2,500** attendees. They also performed at places such as Pera Museum, Notre Dame De Sion, TED Schools, Sabancı University, and ENKA, and internationally in St. Petersburg and Dobrich, reaching **more than 11,000 listeners**.

In 2024, marking Borusan's 80th anniversary, the Borusan Quartet performed a special concert titled "The Story of a Dream" at Avdalaz Castle in Afyonkarahisar. Afyonkarahisar is the place where our group's Founder and Honorary President Asım Kocabiyik first envisioned his dreams. The concert was broadcast on Borusan Holding's YouTube channel on August 8 and has since surpassed 1.5 million views. The full recording is online.

Upon the invitation of Mr. Ahmet Kocabiyik, on September 10 the quartet performed at the Basilica Cistern for an event attended by Caterpillar executives and representatives. Additionally, the group performed at Stars' Night, the 25th anniversary celebration of Lila Müzik, one of Türkiye's leading record labels, held at Süreyya Opera House.

3.3. Borusan Music House

Premieres and Album Launch Concerts

On March 13, Hezarfen Ensemble presented the Turkish premiere of *Yok Mu, Var (Isn't There, There Is)*, a work for vocals and ensemble by composer Yiğit Özatalay, originally premiered in the UK, at Borusan Music House. On April 25, Black Pencil performed selections from their *Into Space* album – premiered in April 2022 – for the first time in Türkiye. Every year, we celebrate International Jazz Day with a concert at Borusan Music House; in 2024, it was marked by a launch performance for the album *Unstable* by the Uğur Güneş Quartet. Berke Can Özcan presented the debut live performance of his album *Twin Rocks* on November 9.

3rd Noise Istanbul Festival

We organized the third edition of Noise Istanbul, Türkiye's only festival dedicated to the noise genre. Over two days, we hosted ten artists from Türkiye, Italy, the UK, France, Germany, Slovenia, Sweden, Japan, and Canada. Held in the 130-seat Borusan Music House, the festival welcomed 170 visitors in total. As a biennial event, the festival continues its mission to introduce Turkish audiences to noise artists who have not previously performed in Türkiye.

3.4. Pre-Concert Talks

We host conversations with guest conductors, soloists, or visiting ensembles prior to the concerts, to engage our audience and keep the dialogue between the institution and its audience alive.

Pre-concert talks at Zorlu PSM's Meydan Foyer were conducted by Aydın Büke, Serhan Bali, Ali Pinar, Füsün Özgüç, and Sungu Okan, featuring the evening's soloists or conductors.

As in previous years, the venue for pre-concert talks for Borusan Quartet concerts continued to be the Kadıköy Municipality Süreyya Opera House. For Borusan Music House events, interviews with our guests were conducted by Back on Stage (BoS) and Dadanizm prior to the performances.

All these talks and interviews were recorded and shared via our online video platform borusansanat.tv. In 2024, these recordings were published on the platform and remained available for one to two weeks after each event.

3.6. borusansanat.tv

An online video platform bringing you the concert experience wherever you are.

Launched during the pandemic, borusansanat.tv serves as a digital platform dedicated to broadcasting our concerts. Streaming concert recordings free of charge, the platform usually comes to life each year between January and July. In 2024, we recorded all concerts by BIPO and the Borusan Quartet, and selected performances from Borusan Music House, and shared them on borusansanat.tv.

In 2024, we shared 22 concert recordings and a series of pre-concert interviews. BIPO performances were available for one week, while selected the Borusan Quartet and Borusan Music House concerts remained online for two weeks. These broadcasts reached more than 3,000 unique viewers, with 800 individual viewers engaging with the concerts and a panel discussion we also published.

3.7. Radio Borusan Klasik

Türkiye's only classical music radio station broadcasting exclusively online.

The station continued to play a key role in Borusan Sanat's mission to broaden the reach and support of classical music. In addition to its regular programming, the station also offered live broadcasts of season concerts featuring BIPO and the Borusan Quartet.

Aired between December 29, 2024, and January 2, 2025, **the fifth edition** of Borusan Klasik's thematic series titled **BIPO Marathon**, featured recordings of acclaimed performances by BIPO and the Borusan Quartet. BIPO Marathon V presented five concert recordings over five days to listeners.

For all three of our brands, we conducted interviews with guest conductors and soloists before each concert on Borusan Klasik. Hosted by Andaç Uzel and Beste Su Bayramoğlu, these conversations were aired before and after each performance. In 2024, our radio station reached more than **200,000 unique listeners** and more than **600,000 streams**. Looking ahead to 2025, we will continue to announce our concert programming via the radio and share these announcements through our social media channels, aiming to attract even more listeners and followers to Borusan Klasik.

4.1. Exhibitions

As Borusan Contemporary, we continued our work on exhibitions, talk series, children's workshops, collaborations with cultural and artistic institutions, and the acquisition of new works for the collection in 2024. Borusan Contemporary kicked off the 2024-25 art season in September with two new exhibitions. The temporary exhibition Doug Aitken: **Naked City** and the collection exhibition **Prélude Eternal** opened to the public at Perili Köşk on September 14, 2024.

Temporary Exhibition: Doug Aitken: Naked City

Curated by Jérôme Sans, the first monographic exhibition of American multidisciplinary artist Doug Aitken in Türkiye, **Naked City**, opened at Perili Köşk. The exhibition brings together works by Aitken from 2007 to 2024. It also features the artist's latest sculpture, commissioned for the Borusan Contemporary Art Collection. The exhibition will remain open until August 17, 2025.

4.1. Exhibitions

Collection Exhibition: Prelude Étérnal

Showcasing a contemporary selection from the Borusan Contemporary Art Collection, ***Prélude Éternel*** focuses on how cyclical forces that define human existence are interpreted by today's artists. The collection has been continuously developed since the 2000s through commissioned works and acquisitions. This exhibition offers visitors an in-depth opportunity to engage with various formations, issues, and perspectives of the modern world, bringing together works by artists who navigate between material and the virtual world. With this show, Borusan Contemporary highlights a new selection of pieces by artists addressing different production practices, from François Morellet to Ayşe Erkmen, Rick Silva to Jerry Zeniuk, and Axel Hütte to Merve Şendil, all of whom reflect on conventional exhibition methods.

Upcoming Exhibition (September 2025-August 2026)

In September 2025, alongside the 18th Istanbul Biennial, we will present the first solo exhibition of Edward Burtynsky in Türkiye, showcasing works commissioned for our collection. For the first time, the exhibition will occupy all areas of Haunted Mansion.

4.2. Public Talk Programs

Sensing the Future Exhibition Talks

As part of the Sensing the Future event series, we held five discussions into the conceptual frameworks of Mat Collishaw: **Arrhythmia** and **Hyper Digital Forces**, inviting perspectives from scholars, scientists, and experts from various disciplines. The series also featured a performative event designed for children. These talks were made available on our Borusan Contemporary YouTube account.

Arrhythmia Exhibition Talks-1 Under the moderation of independent curator and writer Çelenk Bafra, and with the online participation of Mat Collishaw, we held an artist talk on April 27, focusing on the representation of nature in artistic and curatorial practices. This conversation, organized as part of the Sensing the Future series, aimed to explore the role of aesthetic expressions in our understanding of nature, particularly in the context of how artists and curators incorporate technology into their work.

Arrhythmia Exhibition Talks-2 On May 25, we hosted a creative drama-based discussion event for children aged 8-10 as part of the Sensing the Future lecture series. Led by Ecem Kodak, this session included an interactive exploration of Pandora, created by Mat Collishaw for the Arrhythmia exhibition. Afterwards, we conversed with the participating children on marine biodiversity, focusing on the installation titled *Zoetrop (Sounding Sirens)*.

4.2. Public Talk Programs

Digital Mythologies Exhibition Talk This event took place on May 4 as part of the Sensing the Future lecture series, inspired by our collection exhibition *Hyper Digital Forces* from the 2023/24 season. Topics discussed by the exhibition curator, Dr. Necmi Sönmez, and Assoc. Prof. Ebru Nalan Sülün, included curatorial approaches shaping *Hyper Digital Forces*, the opening of our Borusan Contemporary Art Collection to new interpretations, and dialogues to be established with the collection's artists.

Arrhythmia Exhibition Talks-3 Under the moderation of Alice Sharp, we held a panel discussion on June 1 within the Sensing the Future series, focusing on how art can enhance our understanding of the major threats posed by climate change. The panel featured hydrobiology expert Prof. Muharrem Balcı – also one of the contributors to the *Arrhythmia* exhibition catalogue – and food activist Güneşin Aydemir, who works in the field of ecology through civil society. The speakers discussed climate change and its disruptive impact on natural systems, drawing on past and present perspectives on nature.

Arrhythmia Exhibition Talks-4 Moderated by curator and art writer Sinan Eren Erk, the second panel in the Sensing the Future series was held on June 8. This session brought together Assoc. Prof Ebru Yetişkin and curator, arts manager, artist, and educator Ekmel Ertan, to explore how technology interacts today with art, science, and climate – and how these interactions may evolve in the future.

4.3. Children's Workshops

In 2024, Borusan Contemporary sustained its commitment to art education through the Museum Learning Programs designed for children aged 4-6, 6-8, 7-10, and 8-12. Structured around both the institution's collection and temporary exhibitions, the workshops were developed in collaboration with two specialized educator teams. Each session combined interactive exhibition tours that encouraged dialogue with content tailored to age-specific developmental needs, including thematic narratives and hands-on art activities. Over the course of the year, 78 workshops were held, enabling children to engage with contemporary art in a stimulating and accessible environment.

Borusan Story House Collaboration

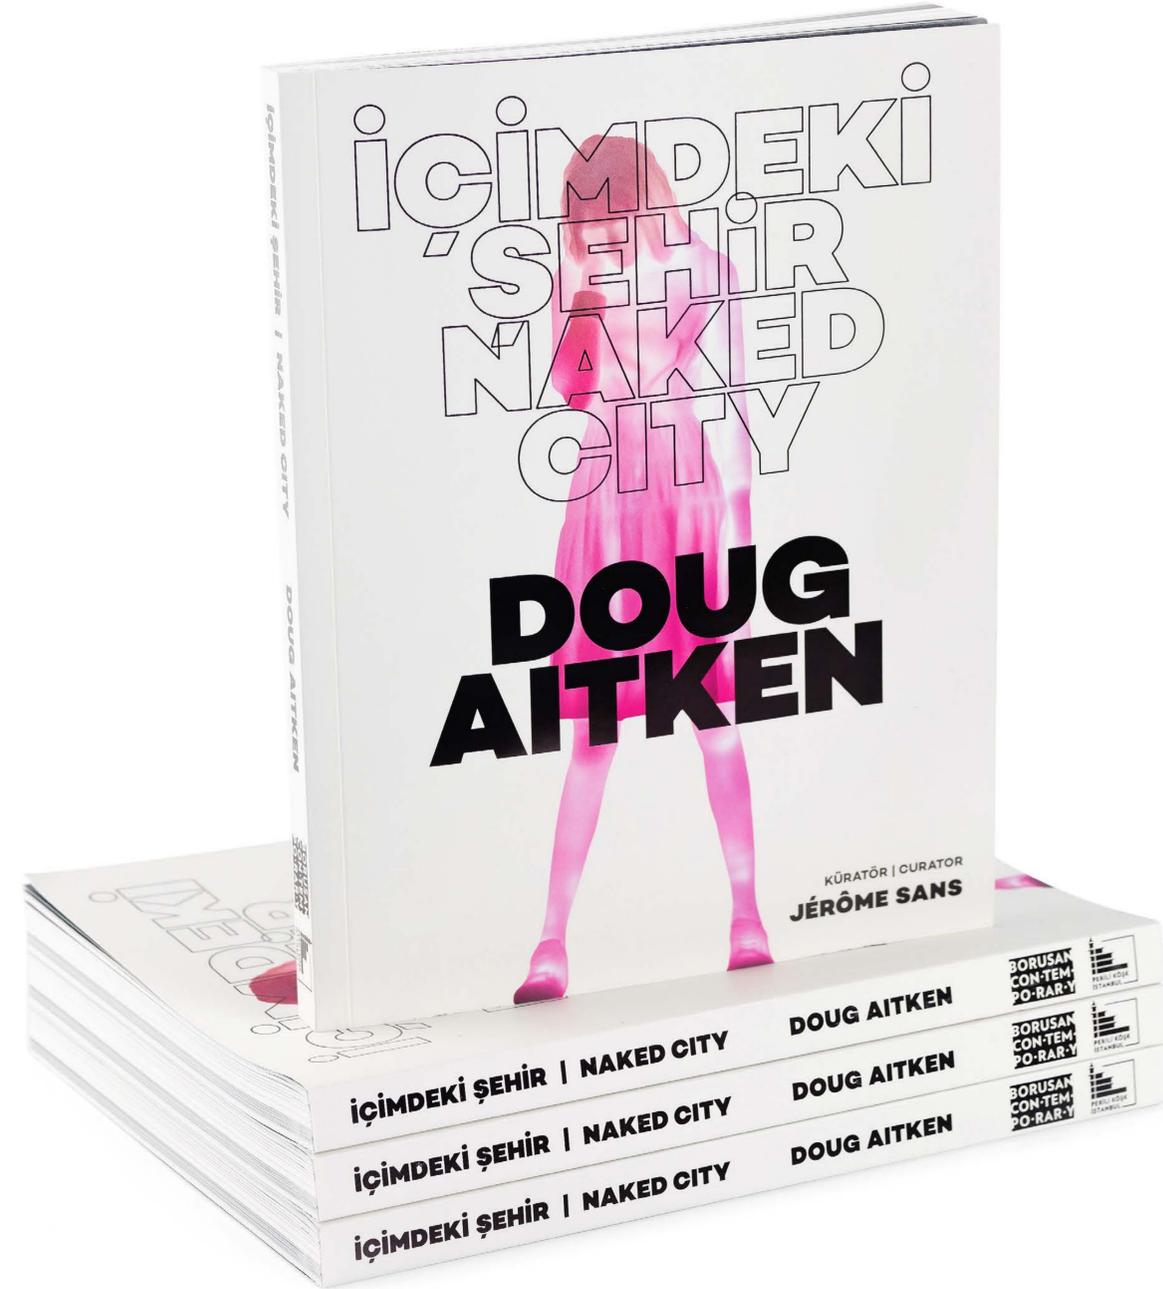

The Borusan Story House—an initiative of the Borusan Kocabiyik Foundation—was conceived to support educational development through original, interdisciplinary modules aimed at children and educators alike. Integrated into Borusan Contemporary's workshop programs as of September 2024, the Borusan Story House focuses specifically on children aged 4-6. Its contribution centers on nurturing self-expression, creativity, and self-confidence in early childhood through storytelling, play-based learning, and interactive engagement with the arts.

4.4. Publications and Exhibition Catalogs

Doug Aitken: Naked City Exhibition Book

We published a comprehensive book to accompany the 2024/25 season exhibition Doug Aitken: Naked City. Designed by Ulaş Uğur and bearing the same title as the exhibition, the publication features essays by Borusan Contemporary Director Dr. Kumru Eren, Prof. Ali Akay, and curator Jérôme Sans, along with an exclusive interview between Sans and Doug Aitken. The book presents detailed information about the exhibited works, including *Ascending Staircase* (2024), a new sculpture commissioned for the Borusan Contemporary Art Collection. The edition was limited to 1,250 copies.

4.5. Commissioned Artwork Project

In October 2024, we completed the onsite photography sessions for the commissioned artwork project developed in collaboration with Canadian photographer Robert Polidori, focusing on the legacy of Mimar Sinan. The shoots took place across Istanbul and Edirne, featuring 18 architectural landmarks, including Hagia Sophia Grand Mosque, Sultanahmet Mosque, Kılıç Ali Pasha Mosque, Chora Mosque, and Üç Şerefeli Mosque. Following the artist's work, six new works are expected to be added to our collection in 2025.

4.8. Borusan Contemporary Blog

Now in its sixth year, the BC+ Blog continues to publish interviews, artwork analyses, and exhibition reviews. Its aim is to provide in-depth insights into the collection, broaden the reach of exhibitions and artworks, deepen public engagement with the Borusan Contemporary Art Collection, expand the media art audience, and promote media art literacy.

Between January 1 and December 31, 2024, the blog reached 2.152 art readers and recorded a total of 3.384 page views. Long-term collaborations with our bloggers continued and we welcomed two new contributors to the team. With the addition of six new articles this year, the blog now features a total of 93 posts authored by 21 writers.

Collection Care, Storage and Conservation Status

To monitor the condition of the artworks displayed at our locations, to regulate their maintenance and repair, and to manage the circulation of the works, we planned regular artwork changes. In 2024, we conducted conservation work on around 130 artworks housed in various locations, including the museum, contemporary art storage, and residences. These efforts involved restoration, conservation, inspection, light/detailed cleaning, frame repair/replacement, and location-based condition monitoring. Notably, Laurent Bolognini's **X360** was removed from display at Perili Köşk, placed into storage, fully refurbished, its insulation was renewed, and its specifications were updated for outdoor display conditions.

4.9. Borusan Contemporary Art Collection

Digital Conservation Project

In 2023, we launched the first phase of a restoration and conservation project for approximately 205 digital artworks (new media, installations, neon-LED, and video works), which included handling, inventory, and the reporting of identified issues. In 2024, we prepared detailed reports based on this initial phase and began uploading them to the TMS (The Museum System) database. We initiated conservation work on 76 artworks identified as having minor, moderate, or significant issues. Additionally, we continued reporting as part of the preliminary stage of creating manuals for works that currently lack them.

Borusan Contemporary Art Collection - UOVO Brooklyn, New York Storage Location

We are now in the third year of our storage agreement, initiated in 2022, which allows a selection of works from our art inventory to be housed in the USA at UOVO's Brooklyn location.

4.11. A Vision to Shape the Future – 100th Anniversary Project

To commemorate the centennial of the Republic and to revisit its achievements, we realized a comprehensive project that included a major exhibition, an accompanying documentary, and a book. Opened in 2023 and remaining on view for seven months, the exhibition was followed in 2024 by the release of the documentary and a comprehensive book.

Exhibition-Related Events Talks

We organized the event series Exhibition Conversations, held as part of *A Vision to Shape the Future* exhibition to unpack the exhibition's layered structure in depth with the help of guided talks and tours led by experts in their respective fields. Among the contributors were İsa Çelik on Music, Uğur Tanyeli on Architecture, Haluk Oral and İzzeddin Çalışlar on History, Christopher Çolak on Graphic Arts, and Ali Kayaalp on Visual Culture.

Long Saturday Starting on Saturday, March 23, the exhibition introduced a Long Saturday schedule, remaining open to visitors every Saturday from 11.00 to 22.00.

Istanbul Bookbinding Institute

Celebrating the value of an ancient craft

As the Borusan Kocabiyik Foundation, we launched the Istanbul Bookbinder Institute (IBI) in October 2023 in collaboration with internationally recognized experts, to support the preservation of the traditional craft of bookbinding. This initiative pays tribute to the teachers and all those who have acted as a bridge in bringing this nearly lost art to the present day.

Located in Kuzguncuk, the institute aims to contribute to the support of traditional bookbinding by producing both traditional and innovative works in the field, organizing entry-level training programs to raise awareness, contributing to the preservation of book heritage, and ensuring the transmission of the craft by involving young aspiring bookbinders who wish to gain experience in the field.

In 2024, the Istanbul Bookbinding Institute (IBI) was established as a commercial enterprise. We launched our official website and our social media account, which has since grown to nearly 2,000 followers. We also started our workshop programs and long-term fellowship offerings toward the end of 2024.
